OUR PHILOSOPHY

YO2 is a pioneering design brand that provides design solutions for their international clientele. YO2 design philosophy is to enrich their clients' homes and working space with beautiful creations that both respect culture and bring a twist of classical influence. Each collection has been designed with the client at the forefront of our minds, and each product can be customized by our designer team. Each collection and each individual design have a story to tell. Evident throughout our designs is a clear crossover between technical, intellectual and creative skills that result in harmonious, eye-catching products that are unique but at the same time an ode to the past. Whilst a common theme of modern Baroque can be found within many of our designs, an overall marriage of classical influence and contemporary conceptualisation are present. One of the most important initiatives of YO2 is to provide a truly wide range of design solutions for professionals and individuals alike; A one stop hub for professionals that search ideas and suggestions for both walls and floors. Our wish is to present a multidimensional design approach, allowing professionals as well as our individual clients to have the choice of an exclusive but at the same time wide range of design ideas pool.

DESIGNERS

Beyond the highly creative YO2 inhouse design team, we are very proud to work with some of the most established and highly talented designers of the world's design scene. This enables us to bring some powerful design ideas to life: Different cultural backgrounds through highly creative approaches as a result of their unique charisma become part of an exquisite range of products by YO2. Such acclaimed associates contribute with their creations which are so much more than just design proposals; each one tells a beautiful story adding the human touch our company is committed to bring to the relationship with our clientele.

CLIENTS

We take pride in working with the leading architectural offices, real estate companies, constructors, hoteliers and designers around the world. YO2 products are distributed through a network of excellent design-oriented shops and agencies in the most countries. Our creative team can adjust or customize any YO2 product from our range to fit the requirements of any project as all of our materials are manufactured mainly for the commercial projects sector, possessing the highest certifications of heavy commercial use norms.

WALLPAPERS

YO2's remarkable range of digitally printed, luxury wallpapers are available in various styles, shapes and colour variations. Ranging from geometric and floral prints to avant-garde and Baroque styles, these wallpapers are available in both subtle shades or busy creations. Years long search for the most suitable materials has allowed us to use various materials such as different vinyl decorative wallcovering for hotels, offices, healthcare institutions as well as durable shop interiors or creative set designs. The textured coated surface ensures a striking and vibrant color range. Moreover, our highly recommended Metallics have gained many fans among our clients. Our Gold, Silver and Bronze metallic range offers you the opportunity to add a glamorous metallic effect to your wall. What's more our Textile wallcoverings are extremely durable, breathable, stain-resistant and provide exceptional insulation. Due to its textile top layer, the wallcovering gives a unique exquisite effect.

COLOUR VARIATIONS

Product colours which are represented in this catalogue are indicative, actual colours may vary on different materials provided. In the wallpapers and decorative panel production, it may occur some slight tone discrepancies between one production lot and another one, or/and between the printing over different supports.

TECHNICAL SPECIFICATIONS

Product colours which are represented in this catalogue are indicative, actual colours may vary on different materials provided. In the wallpapers and decorative panel production, it may occur some slight tone discrepancies between one production lot and another one, or/and between the printing over different supports.

Materials & Specifications

Wallpaper orders come in rolls (50cm wide x 270cm height) which include the panels numbered one next to each other easy to unpack and install. Beyond the standard panel sizes our team can customize any design according to the client's needs. This is vital for both professionals and companies. Less waste but exact customized measures. Any other height than 270 cm can be proportionally reproduced by our design team to fit any space with artwork from the designers provided to make offers easier to place and faster to be approved.

Endless wallpaper width gives the customer the freedom to apply the designs to any space whereas YO2 designers will supply an individual drawing for any order wider than the displayed making each product unique with no recurrence; creating an innovative system on the visual output. Height can also be customized for any design upon request personalizing each wall covering order.

The wallpapers are produced in The Netherlands, digitally printed on high quality foundation that meets the highest standards of washability and fire resistance with special product features:

- Scratch resistant
- Contract qualities for hotels, restaurants, bars and other commercial use as well as domestic used
- All our wallpapers are certified with B\$1, d0 (European) fire certification
- Washable surface
- Excellent image quality
- All designs are possible to manufacture in 9 fantastic qualities
- No minimum order required
- Extra varnishing for greater durability
- Dimensionally stable without stretching or shrinking
- Can be removed in a dry condition for redecoration, provided the appropriate paste has been used

- UV-Resistant
- Dry-Removable: comes off easily

- Printed with ink (Green guard certificate, low chemical emissions)
- Textile Wallcovering
- Contract Quality
- Super Washable
- Scratch Resistant
- High end Effect

STABLE GRAIN

Stable Grain is a dimensionally stable product that is most commonly used for the residential market. The base is made out of a fabric-like material made from long fibers, bonded together by a heat treatment. This process creates a mesh that bonds the wood fibers tightly together making the product extremely durable. The matt non-woven is made without textured embossing and an additional protective varnish (heavy metal free) is added for extra washability and scrub resistance.

- Material: Matt Non-Woven
- Weight: 155 g/m²
- Thickness: 0.16 mm
- Printed with ECO friendly toner dry ink
- UV-Resistant

- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- No addition of formaldehyde or heavy metal compounds
- Width: 50 cm (19,68 inch)
- Dry-Removable: comes off easily
- Matt Finish
- Residential Material
